

IMPORTAT NOTICE
Lawn Sprinkler Winterization

557 Salmon Brook St Granby, CT 06035
Phone (860) 844-0004 Fax (860) 653-9781

Serious damage will result if your lawn sprinkler system is not winterized. **Please respond now.**
Winterization service begins October 1st and runs through November.

This is what you have to do:

- 1) Sign and return this agreement. (Entire page)
- 2) Have the sprinkler main valve shut off October 1st. (See location of valve below.)
This applies to systems that operate on well or city water.
- 3) Be sure that the sprinkler controller is shut off.

***** PLEASE CONFIRM THIS SERVICE BY MAIL OR FAX*****

We will leave written confirmation when we have completed this service. Unless otherwise notified, you need not be home to receive this service. There will be a 25% service charge for the return trip if your sprinkler main valve is not shut off by October 1st. If you would like to be winterized later, please provide a shut off date below. Your system will be winterized after the date.

Winterization will prevent damage to your sprinkler system. Since Grass Helper Lawn Care Inc. has no control over when your system is activated; we cannot be responsible for any freeze damage. Never enable your sprinkler system before the middle of April.

If we should receive freezing temperatures before your system is winterized, it is advised that you protect your backflow prevention device. For instructions on how to do this, please visit our website at www.grasshelper.com

This is your rate for winterization.
Tax is included. To avoid future billing,
please enclose a check for this amount.
